Chapter 1

Introduction

You can label chapter and section titles using `{#label}` after them, e.g., we can reference Chapter 1. If you do not manually label them, there will be automatic labels anyway, e.g., Chapter ??.

1.1 TOC testing

You can write citations, too. For example, we are using the **bookdown** package (???) in this sample book, which was built on top of R Markdown and **knitr** (Xie 2015).

1.2 Footnote testing

Here is some body text.¹

Xie, Yihui. 2015. *Dynamic Documents with R and Knitr*. 2nd ed. Boca Raton, Florida: Chapman; Hall/CRC. <http://yihui.name/knitr/>.

¹This footnote will appear at the bottom of the page.
